

Sebastián Díaz

FULL STACK DEVELOPER

Active, dynamic, with a very good analysis capacity. I am a full stack web developer prepared to use my skills and knowledge, adding value to the projects and goals of the company.

PROJECTS

- [Wobble Searcher](#)

(React, React-Redux, RapidApi, JS, Tailwind)

Similar to google. Search for web page links. Search and display images, videos and news. You can switch to dark mode

- [Pokemon-API](#)

(React, React-Redux, JS, CSS, Html)

Show all the Pokemon. You can search them by type and by name. It also shows the data of each pokemon.

- [Users-CRUD](#)

(CSS, Hook-Forms, Html, React, Rest Api)

Create multiple users with personal data and display them on the page. You can also edit data and delete the user if you want.

- [Rick and Morty](#)

(React, React-Redux, Res Api, JS, CSS, Html)

Find the characters of each planet. It shows the data of the characters, how many chapters they appear and if they are alive or dead.
